Doctors’ Program Lectures

We invite you to join us for this year's APMA Region One/Podiatry Institute Conference. Scientific Program co-chairs, Jay Phillips, DPM and JT Marcoux, DPM, have brought back some of podiatry's best national and speakers from previous conferences and added several new speakers from the Podiatry Institute.

General session lectures begin Friday morning and continue through Saturday and Sunday morning. Both medically and surgically oriented podiatric physicians will find topics of interest for their practices. Please see the doctor's schedule and faculty section in this brochure for a complete listing of all the general session topics and speakers.

PICA Risk Management Program

Optimizing EHR to Improve Patient Care and Mitigate Risk

This lecture will focus on how to optimize and use technology to improve patient care and minimize risks. It will include a discussion of potential risks associated with the use of electronic health records and how to use electronic health records to optimize patient communication and education. It will also include a discussion of electronic health record documentation techniques, use of functional clinical alerts and HIPAA security issues.

Free Friday Optional Workshops

Two Hour Surgical, Wound Care and Biopsy Techniques Workshops 11:00 am to 1:00 pm

- Developing Centers of Excellence for the Diabetic and Senior Patient Populations: Pearls for Implementing Evidenced Based Tools and Protocols for Wound Care Management
- Cutaneous and Soft Tissue Biopsy Techniques: a Didactic and Technical Hands-On Workshop

Free Optional Sunday Morning Hands-On Surgical Fixation Workshop

Forefoot and Mid-Foot Osteotomies and Fusions Utilizing State of the Art Fixation Technologies

Attendees will be able to attend either the general session lectures or register to attend one of these hands-on sawbones workshops. Session 1 will be from 9:00 to 10:00 am and repeat for Session 2 from 10:20 to 11:20 am.

There is no charge to attend this workshop but space is limited so we encourage you to sign up and get your registration in early to ensure your spot.
CONFERENCE OVERVIEW

CPME Certification

The APMA Region One Conference is an approved sponsor of continuing education in podiatric medicine courses as designated by the Council on Podiatric Medical Education. The contact person for APMA Region One Conference is Gary Adams, Director of Continuing Education.

The Basic Doctors’ Scientific Program will deliver 22 Continuing Education Contact Hours (CECH) to DPMs who attend the Friday, Saturday and half day Sunday programs. CPR attendees will receive an additional .5 CECH.

Doctors will be awarded Continuing Education Contact credit hours only for those hours for which they have signed-in. There will be daily sign-in and sign-out sheets for the general session and workshops on all three days to verify attendance for CPME. Continuing Education Contact Hour certificates will be mailed to attendees once the number of credit hours has been determined upon review of the daily sign-in and sign-out rosters.

Optional Friday Evening CPR/AED Re-Certification Course

From 4:30 to 7:00 pm on Friday, we will be offering an American Heart Association certified CPR/AED refresher course for doctors and assistants. The registration fee will be $75. CPR certification and re-certification for podiatrists is mandated by the Rules and Regulations of the Board of Registration in Podiatric Medicine of the Commonwealth of MA. This year's course will again include instructions on using a defibrillator.

Dress Code

We suggest that you dress comfortably and casually.

Registration Fees

Doctors Scientific Program includes continental breakfast and lunch Friday and Saturday and continental breakfast on Sunday. Friday and Sunday's workshops are free for registrants.

- $395 for APMA members from New England registering before September 30; $450 after September 30
- $495 for APMA Members from outside New England registering before September 30; $550 after September 30

Assistants Program includes continental breakfast and lunch Friday

- $75 per person for APMA member staff
- $275 per person for non-APMA member staff

Special Rate of $136 at the CoCo Key Hotel and Water Park for the Conference

The CoCo Key Hotel, Danvers, MA is offering a special group room rate of $136 single or double occupancy. To make reservations, call 978-777-2500 and ask for the special APMA Region One Conference rate of $136. This rate is valid until Tuesday, September 28.

The CoCo Key Hotel is an upscale newly renovated hotel conveniently located just 19 miles north of downtown Boston on the historic North Shore of Boston. All of our general sessions and the exhibit hall will be on the first floor and are handicapped accessible. Amenities include CoCo Key, an indoor water theme park, concierge level, business center, health club, indoor pool, spa, sauna and whirlpool and Internet access. The hotel also has complimentary on-site parking. Check-in is at 3:00 pm.

Assistants’ Program

On Friday from 9:00 am to 4:30 pm assistants will get updates about Medicare billing and coding changes and learn how to avoid the most common coding and billing errors and which coding resources are most helpful, learn new customer service and office productivity strategies and tools, learn more about the Notice of Privacy Practice (NPP) and its purpose as the backbone to the entire HIPAA Privacy requirement, get an update on the latest in EHR and Meaningful Use implementation strategies and learn more about the assistants role in in-office dispensing and DME program management. There will also be a special breakout presentations on wound care management, the need for biopsies on suspicious lesions and a hands-on padding and strapping workshop for podiatric medical assistants. Assistants may also register for the optional CPR/AED refresher course from 4:30 to 7:00 pm on Friday.
CONFERENCE OVERVIEW

Boston and North Shore Sightseeing Attractions

Boston, with its beautiful Common and Public Gardens, historic Freedom Trail, Faneuil Hall Market Place, Beacon Hill, Boston Old Ironsides, great seafood restaurants and shopping and museums is just 30 minutes south of Danvers via Interstate 95.

For history buffs, there’s the House of the Seven Gables just five miles away in Salem, made famous by hometown author Nathaniel Hawthorne. On the same site are three other historic homes including the Hooper-Hathaway House, Hawthorne’s birthplace, built in 1750, and a sea captain’s house from the 1830s. A trip to Salem would not be complete without a visit to the Salem Witch Museum to view the 13 set presentation on the Salem Witch Trials of 1692. Just a short walk from the Witch Museum is the Peabody Essex Museum, begun in 1799 by seafaring entrepreneurs to display what they had collected on their voyages. It is the country’s oldest continuously operating museum and boasts unique early American decorative arts holdings and architecture and the world’s largest and most important collections of Asian decorative arts.

Visit nearby Cape Ann to see the historic fishing seaport of Gloucester - the second permanent settlement in the New World after Plymouth. You can stay on shore and walk the Gloucester Maritime Trail through the city to see all of the sights including its fisherman at work in the harbor or you can venture on the seas to voyage aboard one of the many whale watch vessels. Gloucester is the whale watching capital of the east coast. Or you may want to step back in time and sail aboard Adventure, an actual historic fishing schooner.

Wherever you go in these cities or the other historic North Shore seaside communities of Marblehead, Essex, Rockport, and Newburyport in Massachusetts or Portsmouth, New Hampshire, you’ll find scores of antique and gift stores and restaurants and spectacular ocean and harbor views.

Podiatry Institute Seminars

2012

Insights & Advancements In Foot and Ankle Surgery
Philadelphia, PA, September 21 to 23

Showcasing The McGlamry Textbook, 4th Edition and Its Authors
San Diego, CA, September 27 to 30

Complications, Infections And Wound Management
Fort Myers, FL, November 1 to 4

Windy City Podiatry Conference
Chicago, IL, December 14 to 16

2013

20th Annual Winter Conference
Park City, UT, February 7 to 9

Valley Of The Sun
Phoenix, AZ, April 18 to 21

Surgical Pearls by the Sea
Newport, RI, May 2 to 5

Reconstructive Surgery of the Foot & Ankle - Update 2013
Atlanta, GA, May 16 to 19

Footprints In The Sand
Hilton Head, SC, June 27 to 30

Pacific Coast Conference
Portland, OR, August 8 to 11

Current Concepts in the Management of Foot and Ankle Disorders
Overland Park, KS, August 23 to 25

Reconstructive Surgery of the Foot & Ankle - Update 2013
San Diego, CA, September 26 to 29

Insights & Advancements In Foot & Ankle Surgery
Atlantic City, NJ, October 4 to 6

APMA Region One Conference
Danvers, MA, October 18 to 20

Hallux Valgus And Related Forefoot Surgery
Fort Myers, FL, November 7 to 10
Over 50 Exhibitors
This year over 50 exhibitors will be displaying their products and services in a section of the ballroom next to the general session ballroom. We have excellent representation from many different companies who supply products or services to the podiatric community. Please refer to the following list of exhibitors for the names of the companies who will be exhibiting. This is an important part of the educational opportunity provided by this conference and we urge you to visit exhibitors who are supporting and subsidizing the conference.

Partial List of Exhibitors

- Aetrex Worldwide
- Amerx Health Care – Amerigel
- Associated X-Ray
- Bako Pathology Services
- Biofreeze
- BioMedix
- Biomet
- BioPro, Inc.
- Bioventus
- Blaine Labs, Inc.
- BME, Inc.
- Buffalo Brace by Jerry Miller Shoes
- Clearly Beautiful Nails
- Clinical Therapeutic Solutions
- Corflex, Inc.
- Delta Instruments
- Dia-Foot
- Dr. Comfort
- Dynasplint Systems, Inc.
- GraMedica
- ICS Software - The Sammy Systems
- Langer Biomechanics
- Marathon Orthotics, Inc.
- Medtronic Spinal
- Merz Pharmaceuticals
- Metric Medical Devices, Inc.
- Mini C Sales
- Moore Medical, LLC
- New England Accounts Receivable Management, Inc.
- Northern New England Compounding Pharmacy
- Organogenesis
- Orthofoot
- Orthoheel/Vasyli
- OsteoMed
- Pedinol Pharmacal Inc
- Pine Tree Orthopedic Lab
- Podiatry Insurance Company of America (PICA)
- Realm Labs, LLC
- SafeStep, LLC
- Spring Insurance Group
- Strata Pathology Services
- Stryker Foot & Ankle
- SureFit
- Tetra Corporation - Formula 3
- Wright Medical
- Amerx Healthcare Corp.
- Bako Pathology Services
- BioMedix
- BME
- Gramedica
- OsteoMed
- Strata Pathology Services
- Stryker Foot & Ankle
- Bioventus
- Blaine Labs
- Dynasplint
- Mini-C Sales
- Synthes, USA
- The Tetra Corporation - Formula 3
- Biomet
- Biopro, Inc.
- Comfortland Medical
- Conmed Linvatec
- Delta Surgical Instruments
- Dr. Comfort
- Medtronic
- Metric Medical Devices, Inc.
- Safestep

Conference Sponsors

DOCTORS’ SCIENTIFIC PROGRAM

Friday, October 26
7:30 to 8:00 am
Registration and Continental Breakfast from
7:50 to 8:00 am
Welcome to Region One
8:00 to 10:15 am
Topics of Interest
✦ One-Step Brachymetatarsia Repair
✦ Understanding Meaningful Use: How Stage 1 & Stage 2 fit into improving the quality of care in your office
✦ Amelanotic melanoma: A potentially lethal pitfall in podiatric dermatology
✦ New Insights into Peripheral Neuropathy
✦ Designing Your Practice’s Workflow to Optimize Your EHR Implementation
✦ Cell Therapy and the Diabetic Foot
✦ Questions, Answers by Panel
10:15 to 11:00 am
Break, visit exhibitors
11:00 am to 12:00 pm and 12:00 to 1:00 pm
Optional One Hour Hands-On Surgical Workshops
Attendees chose one from each time period. Workshops repeat.
✦ Extra-Osseous TaloTarsal Stabilization
✦ Alternative Fixation for the Digit
11:00 am to 1:00 pm
Optional Two Hour Workshops
Attendees chose one workshop.
✦ Developing Centers of Excellence for the Diabetic and Senior Patient Populations: Pearls for implementing evidence-based tools and protocols for wound care management
✦ Cutaneous and Soft Tissue Biopsy Techniques; a didactic and technical hands-on workshop with pigs feet

1:00 to 1:45 pm
Lunch, visit exhibitors
1:45 to 3:05 pm
Rearfoot and Ankle Surgery
✦ Lateral Ankle Sprains
✦ Arthroeresis
✦ Posterior Calcaneal Slide Osteotomy
✦ Lis franc Fracture Dislocation: “Fix or fuse?”
✦ Complications Bone Grafting in the Foot and Ankle Surgery
✦ Questions, Answers by Panel
3:05 to 3:50 pm
Break, visit exhibitors
3:50 to 6:45 pm
Wound Care
✦ Wound Classification, Debridement, and Coverage: Navigating the Best Course
✦ From Soup to Nuts: Healing the diabetic ulcer
✦ Negative Pressure Wound Treatments
✦ Bioengineered Skin Substitutes
✦ Amniotic Membrane Allograft
✦ Alternative Methods of Wound Coverage
✦ PRP in Wound Management
✦ Off-loading the Pedal Wound: A difficult first step
✦ Questions, Answers by Panel
4:30 to 7:00 pm
Optional Friday Evening CPR/AED Re-Certification Course

Learning Objectives for Friday Lectures and Workshops
✦ To provide the podiatric surgeon hands-on exposure in the utilization and application of various surgical modalities and fixation devices.
✦ To improve understanding of the various surgical options presented for the rearfoot and ankle with an emphasis on challenges and avoiding complications.
✦ To provide new updates and strategies in wound care, infections and infection management.
✦ To understand how office technology can be utilized to improve patient safety, improve outcomes and mitigate risk.
✦ To better understand the highly variable clinical presentations that may be associated with amelanotic melanoma with emphasis on how such features can result in diagnostic delays; and to review the incidence, prognosis, and treatments for lower extremity amelanotic melanoma will be reviewed.
✦ To provide the podiatric physician with current diagnostic, medical and surgical treatments available in managing diabetic patients with neuropathy and skin ulceration.
✦ To provide new treatment options for wounds, increase podiatrist’s understanding of the wound care protocols, to demonstrate the proper application of various wound care options and how they can improve patient care, compliance and outcomes.
✦ To review the various biopsy techniques that are available for sampling conditions of the skin and soft tissue and the indications for various biopsy techniques to assess skin neoplasms, soft tissue tumors, dermatitides, and special testing modalities.
Saturday, October 27
7:30 to 8:00 am
Continental Breakfast from , visit exhibitors
8:00 to 10:00 am
Hallux Valgus Surgery
✦ Austin Bunionectomy Pearls of Fixation
✦ Lapidus Arthrodesis in 2012
✦ Epiphyseal Stapling for Juvenile Hallux Valgus
✦ First MTPJ Arthrodesis
✦ Translocation Well Osteotomy
✦ Tightrope Bunionectomy
✦ Complications in Hallux Valgus Surgery
10:00 to 10:45 am
Break, visit exhibitors
10:45 am to 12:30 pm
Forefoot Surgery
✦ Hammertoe Implant Options
✦ Second MTPJ instability: An algorithm for surgical treatment
✦ Jones Fracture: To fix or not to fix
✦ Mini Keller arthroplasty for lesser MTPJ arthrosis
✦ Sub Two Syndrome
✦ Fifth Toe Surgery
✦ Questions, Answers by Panel
12:30 to 2:00 pm
Lunch, visit exhibitors
2:00 pm to 4:45 pm
Topics of Interest
✦ Considerations in Pediatric Surgery
✦ Medial Column Arthrodesis
✦ Bone Bruises: A cause of chronic pain
✦ Orthobiologics in Podiatric Medicine and Surgery
✦ Plantar Fibromatosis: Current treatment recommendations
✦ Thermal Necrosis of Bone
✦ Bone Staples: Super heroes of fixation
✦ Unsuspected Classic Kaposi Sarcoma
✦ Questions, Answers by Panel
4:45 to 5:00 pm
Break
PICA Risk Management Session from 5:00 to 6:30 pm
Optimizing EHR to Improve Patient Care and Mitigate Risk

Learning Objectives for Saturday Lectures
✦ To provide the podiatric physician with a review of current surgical treatment options in the management of Hallux Valgus and related first ray pathology.
✦ To understand the various midfoot and heel conditions presented and to understand the differential diagnosis and treatment options available.
✦ To understand the various surgical options presented for the forefoot with an emphasis on challenges and avoiding complications.
✦ To understand the various surgical options presented for the first ray with an emphasis on challenges and avoiding complications.
✦ To better understand how to manage pediatric pathology in a podiatric practice.
✦ To improve understanding of the modalities available and surgical approaches to complications and revisional surgery.
✦ To understand the perioperative considerations of the conditions presented.
✦ To better understand the various surgical options presented for the forefoot with an emphasis on challenges and avoiding complications.
✦ To improve understanding of the various surgical options presented for the first ray with an emphasis on challenges and avoiding complications.
✦ To better understand the modalities available and surgical approaches to complications and revisional surgery.
✦ To increase understanding of the perioperative considerations of the conditions presented.
✦ To provide the podiatric physician with current diagnostic, medical and surgical treatments available in managing pediatric patients.
✦ To improve podiatrist’s understanding of treatment options for Plantar Fibromatosis.
✦ To review and improve understanding of bone related podiatric pathology and medical and surgical treatment options.
✦ To improve ability to diagnose and treat Classic Kaposi Sarcoma.
✦ To show podiatrists how to optimize and use technology to improve patient care, improve outcomes and minimize risks.
Sunday, October 28

8:00 am to 12:30 pm
Podiatric Potpourri

- Nutritional Supplements for Diabetic Neuropathy
- Tobacco and the Lower Extremity
- Nutrition in Wound Healing
- Vitamin D Deficiency
- Top 5 Postural and Gait Compensations for Poor Feet in the Podopediatric Patient
- PIPJ Surgery: Options and techniques
- Plantar Foot Surgery
- Epidermal Nerve Testing in CRPS: A prospective multi-center study
- New MDEP Protocols and Resources for Reducing Complications in Patients with Diabetes
- Common Drug Interactions
- Questions, Answers by Panel

9:00 to 10:00 am
Optional Hands On Surgical Fixation Workshop - Session 1
Space is limited so register early to be sure you can attend

10:20 to 11:20 am
Optional Hands On Surgical Fixation Workshop - Session 2
Space is limited so register early to be sure you can attend

Learning Objectives for Sunday Lectures and Workshop

- To improve podiatrist’s knowledge of nutritional supplements for diabetic neuropathy and the impact of patient tobacco use, vitamins and nutrition on wound care and healing.
- To better understand the relationship between pediatric foot types and pathology and medical problems associated with other parts of the body including the spine, back and hips.
- To review current techniques for all PIPJ and Plantar Foot surgery.
- To update podiatrists on prospective clinical research related to epidermal nerve testing in Complex Regional Pain Syndrome (CRPS).
- To provide podiatrists with new protocols and patient education tools, developed by the Massachusetts Diabetes Education Program (MDEP), to help reduce complications in patients with diabetes.
- To improve understanding of drug interactions for drugs commonly prescribed by podiatric physicians.
- To provide podiatric surgeons with hands-on surgical experience focusing on forefoot and mid-foot osteotomies and fusions using state-of-the-art fixation technologies.

The 2013 APMA Region One/ Podiatry Institute Conference

October 18 to 20
DoubleTree by Hilton Hotel
Boston North Shore, Danvers, MA
(Formerly the CoCo Key Hotel and Water Resort)
FRIDAY’S PODIATRIC ASSISTANTS’ PROGRAM

9:00 to 9:10 am
Opening remarks and welcome
Kathy Adams

Front Office
9:15 to 10:15 am
Mike King, DPM and Peter Paicos, DPM
Understanding the Coding Basics
Using coding resources such as APMA online, updates on changes in billing and coding for Medicare and other insurers; surgical codes, global periods, LOPS vs. G1027, CDFE and E/M levels -. Plus an ICD 10 update.

10:15 to 10:30 am
Kathy Adams
Dealing with Accounts Receivable
Challenges and difficult patients who don’t want to pay.

10:30 to 10:45 am
Break and visit exhibitors

10:45 to 11:15 am
Mike King, DPM and Peter Paicos, DPM
Common Mistakes in Billing and Coding
Understanding CPT levels, appropriate use of codes to avoid errors; and the importance of reviewing EOBS.

11:15 am to 12:00 pm
Ray Posa, MBA
Understanding Your Notice of Privacy Practice (NPP)
This presentation will provide a thorough understanding of the NPP and its purpose as the backbone to the entire HIPAA Privacy requirement. Attendees will also see how a thorough understanding of the NPP can avoid many patient confrontations over what are and are not their rights.

12:00 to 12:30 pm
Mike Brody, DPM
EHR and Meaningful Use
Podiatric assistants play an integral role in meeting government requirements for meaningful use and performing quality measures that keep doctors compliant and patients well taken care of. We will understand how TEAM participation in proper use of Electronic Health Records can greatly affect practice success.

12:30 to 1:00 pm
David Alper, DPM
Podiatric Assistants - the Front Line of Patient and Customer Care
Patients come for the consult, care and comfort of the doctor, but seeing “their friends” behind the desk makes them leave that much happier and let’s them know they are appreciated. So let’s talk about how we make the reception room your room, and how the assistants at the desk contribute to a pleasant, successful patient visit leading to increased referrals.

1:00 to 1:45 pm
Lunch, visit exhibitors

1:45 to 2:45 pm
Bill McCann, DPM and Cindy Pezza, PMAC
In Office Dispensing (IOD) – Great for Your Patients and Great for Your Practice!
In the uncertain world of health care and reimbursement it has become more important than ever to offer all of the products and services that our patients need in the convenience of our practices and at the time of their visit. In this fast paced overview of many of the most commonly used IOD products, we will describe how to easily offer, not “sell” what your patients need to keep them happy, compliant, and coming back for more.

2:45 to 3:45 pm
Josh White, DPM, CPed
Simple Protocols for Use of Durable Medical Equipment to Improve Patient Compliance and Outcomes and Build Your Practice
An easy-to-follow guide with Medical-Legal security to provide you with consistent standards of care. This will improve patient compliance and outcome, improve patient satisfaction and also allow ease of inventorying for patient convenience.

3:45 to 4:15 pm
Cindy Pezza, PMAC
Going the Extra Smile
Providing the best possible experience for our patients should be one of a practice’s most important goals. As front and back office podiatric assistants it is our job to keep patients happy from their first encounter on the phone to the end of their visit at the check out window. Learn proven tricks of the trade and how going that “extra smile” helps keep our offices running efficiently, our doctors moving, and our patients referring their friends and family for years to come.

4:15 to 4:30 pm
Kathy Adams and Cindy Pezza, PMAC
Wrap Up, Open Forum and Questions and Answers
David B. Alper, DPM
In private practice, Belmont, MA. Past President of MPMS and the APMA Region One Conference. Noted speaker and writer on a variety of podiatric topics for the lay public, including articles published in *Prevention*, *Health Journal*, and *Walking* magazines.

Bradley W. Bakotic, DPM, DO
Dermatopathologist and Principal Partner of Bako Pathology Services, Alpharetta, GA. Board-certified in anatomic pathology and clinical pathology. Only podiatrist in the nation to hold specialty board certification in dermatopathology.

Michael L. Brody, DPM
Works with CCHIT, The International Standards Organization, The New York E-Health Collaborative, and other local, national, and international organizations in the field of Health Information Technology. In private practice in New York Teaches at the residency program at the VA Hospital in Northport NY.

David J. Caldarella, DPM
Faculty, The Podiatry Institute, Decatur, GA. Department of Orthopaedics, Podiatry and Sports Medicine, Gundersen Lutheran Medical Center, La Crosse, WI.

Cathy O. Coker, DPM
Faculty, The Podiatry Institute, Decatur, GA. In private practice, Chelmsford, MA.

Louis DeCaro, DPM
Diplomate American College of Foot & Ankle Pediatrics. In private practice West Hatfield, MA. Specializes in podo-pediatrics and adult biomechanics. Medical director and co-owner of Nolaro24 LLC, featuring the QuadraStep System™ 24 foot typing model. Also co-creator of littleSTEPS orthoses for kids.

Matrona Giakoumis, DPM
3rd Year, Resident, DeKalb Medical Center, Decatur, GA.

Donald R. Green, DPM
Faculty, The Podiatry Institute, Decatur, GA. Residency Director, Scripps Mercy Kaiser Podiatric Residency Program, San Diego, CA. Clinical Professor, California School of Podiatric Medicine.

Terence J. Harrist, MD
Co-Director of Dermatopathology, Strata Pathology Services, Lexington, MA

Emily A. Hermes, DPM
2nd Year, Resident, DeKalb Medical Center, Decatur, GA

Richard J. Jay, DPM
Professor of Foot and Ankle Orthopedics at Temple University School of Podiatric Medicine. Board Certified in Foot and Ankle surgery. Fellow of the American College of Foot and Ankle Surgeons. In private practice Vineland, NJ.

Michael King, DPM
Past President of APMA, MPMS and the APMA Region One Conference. Diplomate of the American Board of Podiatric Surgery. Fellow of the American Society of Podiatric Surgeons. In private practice Concord, NH.

Stephan LaPointe, DPM, PhD
Diplomate, American Board of Podiatric Surgery; Fellow, American College of Foot & Ankle Surgeons. In private practice Rome, GA. Faculty, the Podiatry Institute.

Richard H. Mann, DPM
Staff, Delray Medical Center and Wound Treatment Center. Owner of Realm Labs, LLC. In private practice, Boynton Beach, FL.

John T. Marcoux, DPM
Diplomate, American Board of Podiatric Surgery; Fellow, American College of Foot & Ankle Surgeons; In private practice at Saint Elizabeth's Hospital, Brighton, MA.

William McCann, DPM
Diplomate, American Board of Podiatric Surgery; Fellow, American College of Foot and Ankle Surgeons; Fellow and Immediate Past President of the American Academy of Podiatric Practice Management; National and international lecturer and author on practice management topics. In private practice Concord, NH.
